

VIRTUAL CANDIDATES FORUM

SAVE THE DATE Jan. 31

How will candidates address the housing and homelessness crisis in Pasadena?

Some questions that candidates will be asked:

- 1) What concrete steps would you take to end homelessness in our city?
- 2) What policies do you support that would create more affordable housing in our city?
- 3) Now that rent control is part of our City Charter, what will you do to make sure that tenants in our city are protected and treated fairly?
- 4) What steps would you take to support federal and state laws requiring cities to “affirmatively further fair housing” and ensure that there is affordable housing in all parts of our city?
- 5) Now that SB 4 rezones religious and college land for affordable housing statewide, what would you do to make sure this bill is implemented in our city and how would you support religious institutions and colleges interested in having affordable housing built on their underutilized land?
- 6) Are you in favor of a dedicated fund for affordable housing either through a transfer fee (as Culver City and LA have done), or some other means?

When: Wednesday, Jan. 31, at 7 pm.
